VEGETARIAN INDEX

1959-1971 Production Seasons

Commercial

I. CROPS

Bulb Crops

1. Onion Spacing and Culture (65)

Cruciferous

1. Sting Nematode Control in Cabbage (88)
2. Cabbage Variety Trials (88)
3. Looper Control on Cabbage (88)
4. Effects of Copper on Cabbage Black Speck (83)
5. Cabbage Looper Control (80)
6. Variety and Spacing Effects on Cabbage Yields (76)
7. Controlled Atmosphere Storage - Brussels Sprouts and Cauliflower (75)
8. Host Plants for Blackrot of Cabbage (68)
9. Bacterial Leafspot of Cabbage (61)

Salad Crops

1. Controlled Atmosphere Storage - Lettuce (75)
2. Black Heart in Celery, Endive and Escarole (68)

Solanaceous

1. Potato Seed-Piece Treatment (93)
2. Pox on Tomatoes (91)
3. Bromine Injury on Potatoes (90)
4. Liming Problems on Tomatoes (89)
5. Potato Vine Killers (87)
6. Potassium Effect on Tomato Graywall (85)
7. New Seed Potato Regulation (84)
8. Table Stock Potatoes Used for Seed (84)
9. Wash Water for Tomatoes (83)
10. Plastic Mulch Effects on Root-knot in Tomatoes (81)
11. Liming Effects of Tomato Fusarium Wilt (81)
12. Poor Control of Tomato Late Blight (80)
13. Controlled Atmosphere Storage - Tomatoes and Potatoes (75)
14. Effect of Freezing Temperature on Seed Potatoes (74)
15. Tomato and Potato Late Blight Forecasting (63)
16. Blotchy Ripening of Tomatoes (63)
17. Investigation of Factors Affecting Potato Production on Old Land (53)
18. Effects of Seed and Fertilizer Rates on Yields of Potatoes (53)
Table Legumes

1. Timing Pesticide Application on Beans (85)
2. Powdery Mildew of Bush Beans (81)
3. Controlled Atmosphere Storage - Green Beans (75)
4. Fertilization of Southern Peas (70)
5. Potential for Marketing Fresh, Shelled Table Legumes in Florida (70)

Vine Crops

1. Watermelons - Land Selection, Liming and pH, Varieties, Seed Treatment, Fertilization, Irrigation, Weed Control, Pollination, Insect and Disease Control and Harvesting (92)
2. Fertilizer Placement on Watermelons (89)
3. Mottling of Summer Squash (88)
4. Cucurbit Seed Treatment for Rodent Control (84)
5. Fertilizer Placement on Watermelons (81)
6. Lime Effects on Watermelon Wilt (80)
7. New Leafspot Disease on Cucumbers (80)
8. Quality in Cantaloupes (77)
9. Watermelon Response to Copper (76)
10. Compatibility of Insecticides, Fungicides and Foliar Fertilizers on Watermelons (72)
11. Plants Susceptible to Watermelon Mosaic Virus (71)
12. Fertilization of Squash (70)
13. Watermelon Mosaic - Description of the Problem, Methods of Transmission, Suggested Methods for Curbing Spread of WMV and Research Now in Progress and Planned for the Future (June, 1965)
14. Trueness to Original Type - Charleston Gray (65)
15. Watermelon Mosaic (59)

Okra

1. Fertilizer for Okra (76)
2. Fertilization of Okra (70)

Strawberry

1. Plastic Mulch Applicator and Bed Shaper for Strawberry Culture (82)
2. Controlled Atmosphere Storage - Strawberries (75)

Sweet Corn

1. Spacing in Sweet Corn (63)
2. Corn Stem Weevil Control (56)

Sweet Potato

1. Sweet Potato Notes (82)
2. Controlled Atmosphere Storage - Sweet Potato (75)

Minor Crops

1. Red Spider Mite Control on Eggplants (90)
II. SPECIFIC TOPICS

Climate and Control

1. Effect of Freezing Temperature on Seed Potatoes (74)
2. Effects of Cold Weather and Protection Techniques on Vegetable Crops - Types of Cold Injury, Vegetable Grouping in Cold Hardiness, Protective and Control Measures (58)

Soils and Land Management

1. Watermelons - Land Selection (92)
2. Cover Crops and Fumigation Interactions (83)
3. Plant Row Orientation (80)
4. Fixation by Different Soil Types (61)

Fertilizers and Liming

1. Fertilizer Salt Injury to Germinating Crops (93)
2. Watermelons - Liming, pH, Fertilization (92)
3. Ammoniated Superphosphate Use in Vegetable Production (91)
4. Fertilizer Placement on Watermelons (89)
5. Sulfur-Coated Fertilizer Materials (89)
6. Liming Problems on Tomatoes (89)
7. Use of Low Salt Index Fertilizers in Vegetable Production (86)
8. Drop in pH from Summer to Winter (86)
9. Placement of Fertilizer (85)
10. Potassium Effect on Tomato Graywall (85)
11. Sweet Potato Notes - Fertilization (82)
12. Fertilizer Placement on Watermelons (81)
13. Fertilizer for Okra (76)
14. Watermelon Response to Copper (76)
15. Liming Close to Planting Time (74)
16. Poultry Manure and Possible Boron Toxicity (72)
17. Effects of Soil Fumigation on Fertilization (72)
18. Fertilization of Okra, Squash, Southern Peas (70)
19. Interval Between Liming and Planting (70)
20. Fertilizer and Salt Burn on Vegetables (64)
21. Tomato and Potato Late Blight Forecasting (63)
22. Use of Phosphorus (61)
23. Accumulation of Phosphorus Reserves (61)
24. Calcium-Phosphorus Relationships (61)
25. Phosphorus on Old and New Land (61)
26. Liquid Fertilizers (59)
27. Nitrogen Needs on Muck Soils (59)
28. Foliar Nutrition of Vegetables (51)
29. The Use of Liquid Fertilizers on Vegetable Crops (51)
30. Soluble Salt Determination (46)

Irrigation and Drainage

1. Watermelons - Irrigation (92)
2. Flooding Practices - What are the Advantages? (68)
Seeds and Transplants
1. Potato Seed-Piece Treatment (93)
2. Improved Seedling Development Techniques - Containerized Transplant Production (93)
3. Watermelons - Seed Treatment (92)
4. New Seed Potato Regulation (84)
5. Table Stock Potatoes Used for Seed (84)

Varieties and Types
1. Watermelons - Varieties (92)
2. Cabbage Variety Trials (88)
3. Sweet Potato Notes - Variety Evaluation (82)
4. Trueness to Original Type - Charleston Gray (65)

Weeds and Control
1. Watermelons - Weed Control (92)
2. Success or Failure with Herbicides (88)
3. Sweet Potato Notes - Weed Control (82)

Pests and Control
1. Watermelons - Insect and Disease Control (92)
2. Powdery Mildew on Tomatoes (91)
3. Red Spider Mite Control on Eggplants (90)
4. Looper Control in Vegetable Crops (90)
5. Bromine Injury on Potatoes (90)
6. The "Looper" Problem in Florida (89)
7. Mottling of Summer Squash (88)
8. Sting Nematode Control in Cabbage (88)
9. Looper Control on Cabbage (88)
10. Timing Pesticide Application on Beans (85)
11. Cucurbit Seed Treatment for Rodent Control (84)
12. Effects of Copper on Cabbage Black Speck (83)
13. Sweet Potato Notes - Insect and Disease Control (82)
14. Powdery Mildew on Bush Beans (81)
15. Plastic Mulch Effects on Rootknot in Tomatoes (81)
16. Liming Effects of Tomato Fusarium Wilt (81)
17. Poor Control of Tomato Late Blight (80)
18. Cabbage Looper Control (80)
19. Lime Effects on Watermelon Wilt (80)
20. New Leafspot Disease on Cucumbers (80)
21. Nematode Control (78)
22. Spray Tank Mixtures (74)
23. Aluminum as a Possible Repellent of Aphids (72)
24. Marigolds and Nematode Control (72)
25. Compatibility of Insecticides, Fungicides and Foliar Fertilizers on Watermelons (72)
26. Plants Susceptible to Watermelon Mosaic Virus (71)
27. Watermelon Mosaic - Description of the Problem, Methods of Transmission, Suggested Methods for Curbing Spread of WMV and Research Now in Progress and Planned for the Future (June, 1965)
Pests and Control (Continued)

28. Host Plants for Black Rot of Cabbage (68)
29. Black Heart in Celery, Endive and Escarole (68)
30. Tomato and Potato Late Blight Forecasting (63)
31. Blotchy Ripening of Tomatoes (63)
32. Electrostatic Dusting of Vegetables (61)
33. Bacterial Leafspot of Cabbage (61)
34. Compatibility of Chemicals in the Spray Tank and Plant Injury (60)
35. Watermelon Mosaic (59)
36. Comparison of Air Blast and Boom Sprayers (56)
37. Corn Stem Weevil Control (56)

Cultural Practices

1. Improved Seedling Development Techniques - "Plug-Mix" Seeding Method (93)
2. Potato Vine Killers (87)
3. Sweet Potato Notes - Hot Water Bath for Sweet Potatoes (82)
4. Plastic Mulch Applicator and Bed Shaper for Strawberry Culture (82)
5. Deep Seeding for Uniform Moisture and Early Weed Control (81)
6. Seeding in Furrow and Herbicide Use (80)
7. Plastic Mulch for Vegetables (76)

Physiology, Growth and Reproduction

1. Watermelons - Pollination (92)
2. Seed Germination and Plant Growth - Problems, Preventive and Corrective Measures (79)
3. Quality in Cantaloupes (77)
4. Variety and Spacing Effects on Cabbage Yields (76)
5. Seed Size and Depth of Planting (72)
6. Dormancy of Potato Seed and Treatments (71)
7. Onion Spacing and Culture (65)
8. Spacing in Sweet Corn (63)
9. Onion Production (60)
10. Effects of Seed and Fertilizer Rates on Yields of Potatoes (53)
11. Investigation of Factors Affecting Potato Production on Old Land (53)

Harvesting, Handling, and Marketing

1. Watermelons - Harvesting (92)
2. Market Potential for Additional Vegetable Crops in Florida (90)
3. Wash Water for Tomatoes (83)
4. Sweet Potato Notes - Harvesting and Handling (82)
5. Controlled Atmosphere (CA) Storage (75)
6. Roadside Marketing of Vegetables (72)
7. Potential for Marketing Fresh, Shelled Table Legumes in Florida (70)
General
1. Nozzle Wear in Spray Equipment (91)
2. Sweet Potatoes Notes – Marketing and Promotion (82)
3. Vegetable Production Areas, Dates of Planting and Harvesting (52)
4. Textbooks (49)
5. Trade Journals and Magazines (49)
6. Technical Journals (49)
7. Reports (periodical) (49)
8. Literature Sources (49)
9. Miscellaneous Lists (49)

Miscellaneous
1. Solution Testing for Hydroponics (90)
2. "In-Depth" Schools for Vegetable Growers (81)
3. Responsibility – Correct Diagnosis (78)
4. Fresh Produce Buyer's School (77)
