Call for Abstracts for the 2006 Joint Meeting of the Florida State Horticultural Society and the Soil and Crop Science Society of Florida June 4 - 6

This year FSHS and SCSSF will meet jointly at the Marriott Tampa Westshore Hotel. This year's meeting will offer many opportunities for all attending. In addition to over 170 technical presentations, there will be two evening receptions to get together with friends and colleagues, and special sessions with invited speakers. The Marriott Tampa Westshore Hotel is conveniently located on the west side of Tampa. This is an excellent facility and is close to beaches, shopping and the other attractions in the Tampa Bay area.

The Joint Meeting of FSHS and SCSSF will feature presentations of applied research pertaining to horticultural and agronomic crops and products, and new developments and practices that have been put into use by growers, processors, allied industries, and other horticultural interests in Florida. Growers, processors and members of allied industries are encouraged to present papers. Both societies will also sponsor Student Best Paper competitions with awards for the top three presenters. An In-service Training program will be offered on Tuesday afternoon on, “Methyl Bromide Alternatives for Crop Production”.

Abstracts are due by May 1 to the respective society and will be published. See instructions for each society below. Papers presented through FSHS and SCSSF at the Annual Meeting will be published in the Proceedings of the FSHS and SCSSF separately; manuscripts are due at the time of the presentation for FSHS. Papers presented through SCSSF will be due by August 1, 2006.
Florida State Horticultural Society

The abstract limit is 250 words. Abstracts should be e-mailed (in MS Word or Rich Text Format only) to the appropriate sectional Vice President listed below. See the FSHS web site for complete format instructions for abstract and manuscript preparation (http://www.fshs.org). Meeting information is also available at the web site. The sectional Vice Presidents will notify senior authors concerning the acceptance, handling and scheduling of their papers by April 1.
